

Data Sources
 Base map data including hydrologic data, village and town locations, glaciers and icefields, watersheds, roads, boundaries and land ownership are from the State of Alaska, Core GIS database. The oil and gas wells are from the Alaska Division of Oil and Gas database adapted from the Alaska Oil and Gas Conservation Commission dataset. The basin deponents are from the Alaska Division of Oil and Gas. The secondary basins, faults and folds are from Kirschner, C.E., 1988, and the coal field boundaries are from Merritt, R.D. and Hawley, C.C., 1986.
